

HASSAAN ALI AKBAR

Full-Stack Web Developer

+92-313-456-3723 | hassaanalee07@gmail.com | Lahore, Pakistan
linkedin.com/in/hassaanaliakbar | github.com/hassaanrana07

PROFESSIONAL SUMMARY

Results-driven Full-Stack Web Developer with hands-on experience building enterprise-grade web applications using Laravel, Vue.js, React.js, Inertia.js, Tailwind CSS, and MySQL. Proven ability to design and deliver scalable backend APIs and responsive frontend UIs across complex platforms including ERP, CMS, HRMS, and PRMS systems. Certified in Full-Stack Web Development and currently pursuing a BS in Computer Science. Seeking Full-Stack, Frontend, or Backend Developer roles in the Pakistan software industry.

TECHNICAL SKILLS

Languages & Frameworks: PHP, JavaScript, HTML5, CSS3, Laravel 12, Vue.js 3, React.js, Inertia.js, Node.js/Express

Frontend: Tailwind CSS, Bootstrap, Responsive Design, Vite, Chart.js

Backend & APIs: RESTful API Development, JWT Authentication, RBAC, Redis Caching, WebSockets

Databases: MySQL, PostgreSQL

DevTools & Workflow: Git, GitHub, Branching & PRs, Code Reviews, XAMPP, Composer, npm/npv

Other: WordPress, MS Office, Canva, SEO Basics

PROFESSIONAL EXPERIENCE

Ronnie Ridge Technology | Full-Stack Developer (Internship Trainee) Dec 2025 – Present | Lahore, Pakistan

- Develop and maintain full-stack web applications using Laravel (PHP), Vue.js, React.js, Inertia.js, Tailwind CSS, and MySQL
- Architect RESTful backend APIs and implement frontend UI components for enterprise platforms including a CMS, HRMS, and PRMS
- Implement RBAC systems, JWT authentication, Redis caching, and SEO optimizations across multi-role platforms
- Collaborate with cross-functional teams in an Agile environment, managing code via Git branching, pull requests, and code reviews
- Contribute to full development lifecycle from database schema design to production-ready UI delivery

Codiveo | Frontend Developer (Internship) May 2024 – Aug 2024 | Lahore, Pakistan

- Built and customized responsive WordPress websites using HTML5, CSS3, and JavaScript, transforming design mockups into cross-browser-compatible pages
- Delivered frontend solutions for 3+ live client websites from initial setup through deployment under senior developer supervision
- Collaborated with development team using GitHub for version control, branching workflows, pull requests, and code reviews
- Maintained first-draft accuracy, reducing revision cycles and improving development efficiency

PROJECTS

BrickBeam — Enterprise Construction CMS — Laravel 12 · Vue.js · Inertia.js · MySQL · Vite · Redis

- Built a full-featured enterprise CMS with a public-facing site (Home, Services, Portfolio, Cost Estimator, Blog, Careers, Contact) and a powerful admin panel
- Implemented Lead Management with lead scoring, RBAC (5 roles), Analytics Dashboard, Portfolio & Blog managers, and Global Settings
- Integrated Redis caching for performance, SEO optimization, and Dark/Light mode toggling

HRMS — Human Resource Management System — Laravel · MySQL · PostgreSQL · JWT · REST APIs

- Developed enterprise-grade HR platform handling the full employee lifecycle from recruitment to payroll and performance management
- Built modules for Employee Management, Recruitment & Onboarding, Attendance & Leave, Payroll & Benefits, Performance, Training, and Analytics
- Implemented RBAC with 6 roles (Admin, HR Manager, Payroll Manager, Department Head, Recruiter, Employee), JWT authentication, and Email/SMS/Biometric integrations

PRMS — Property Rental Management System — *Laravel 12 · MySQL*

- Designed and built a full rental lifecycle system for landlords, property managers, real estate agencies, and apartment managers
- Delivered modules for Property Management, Tenant Management, Payment Tracking, and Contract Management from a unified admin dashboard

Real-Time Air Quality Monitoring & Alert System — *React.js · Node.js/Express · REST APIs · Tailwind CSS · Chart.js · WebSockets*

- Built a full-stack web app that fetches and visualizes live air quality data (AQI, PM2.5, PM10, CO₂) from third-party environmental APIs via WebSockets
- Developed interactive React.js frontend with Chart.js visualizations including pollution trends, historical comparisons, and color-coded AQI indicators
- Implemented threshold-based alert system triggering browser and email notifications when pollutant levels exceed WHO/EPA standards
- Architected RESTful Node.js/Express backend to proxy and cache API responses, reducing latency and external API call frequency

EDUCATION

Bachelor of Science in Computer Science (In Progress)

Oct 2022 – Present

Virtual University of Pakistan | Lahore, Pakistan

Diploma in Mechanical Engineering — Dies & Mold Technology

Sep 2017 – Oct 2021

Precision System Training Centre, Ferozpur Road | Lahore, Pakistan

CERTIFICATIONS & COURSES

- Full-Stack Web Development — Certified
- Programming Essentials in C++
- MS Office Proficiency

LANGUAGES

English (Professional) · Urdu (Native) · Punjabi (Native)
